ABOUT US

We as Crown Insurance, incorporated in **2002**; and at present have 1500+ satisfied clients.

We will help clients to achieve their financial needs with practical and intelligent investment assessments.

Our core purpose is to provide fast-track financial service & thereby make people enjoy a secure retirement life

We are a certified Mutual Fund Distributor and Insurance Advisor recognized by the AMFI (Association of Mutual Funds of India) and IRDA (Insurance Regulatory and Development Authority). We offer comprehensive distribution services, having a highly qualified and experienced team of financial distributors. We use our complete knowledge of insurance, tax laws, and mutual fund investments in order to suggest investment options to the clients, as per their long-term and short-term goals.

WHAT WE OFFER

Purchase of any financial products without consulting a financial planner is like taking a medicine without doctor's diagnosis. We offer our expert advice for choosing the best investments products which will lead to your financial freedom.

PLAN

Get customized advice across investments, goals, expenses, insurance, loans, estate planning, and taxes.

EXECUTE

Implement your customized advice by buying all the recommended financial products on one single platform.

MANAGE

Track your journey and review/rebalance your investments to make sure they are aligned with your goals.

Financial Advisory

Our end-to-end advisory solutions help unlock and preserve value in mergers and acquisitions, restructuring, investigations and disputes, and drive a greater impact for our clients and society.

Child Future Assessment

Financial Planning for our children has two parts. The easier to solve is the financial part, the more intense and difficult one is the behavioural part.

Retirement Assessment

Retirement planning is necessary to maintain financial independence during retirement life. You may find it difficult to bring down your lifestyle despite lower income in the retirement life. Many people overlook the fact that retirement planning is a long process and start worrying about income at the fag end of their career.

Portfolio Review

The start of a new year is the perfect time to review your portfolio. If you have not been monitoring your portfolio on a regular basis, now is the time to resolve to do so in the future.
